A NEW CHAPTER FOR CHRISTINA

Christina came to SPA Women's Ministry Homes struggling with addiction, depression, financial challenges, and isolation. With support from SPA and Crossroads United Way donors, she accessed healthcare, counseling, job training, and financial education—each step helping her rebuild her life.

By graduation, Christina had stable employment, safe housing, repaired family relationships, and the confidence to thrive independently. Her story shows how, together, we can create second chances and brighter futures.

Your gift helps women like Christina transform their lives. United is the Way—please give today.
